240mm diameter	\$190	\$210	\$220	\$240
350mm diameter	\$260	\$280	\$290	\$310

Additional information

Blind fixing - suitable for applications such as a front door where attachment needs to be hidden and the material is thick

Screw fixing - suitable for applications such as a cabinet door where attachment doesn't need to be hidden and the material is thin. Screws are not provided as sizing varies for each project.

Raw - the handle is left without a finish to enable your own stain / finish to be applied.

Finish - On ordering, you can select either the indoor or outdoor Osmo polyx natural finish depending on where you will be installing the handles. For both sides of a front door still select the outdoor option.
